

69kV - 400kV High Voltage Cables

Applications

Prysmian Power Cables has over 125 years of experience providing High Voltage Power Cables to utility and industrial customers throughout the world.

Prysmian's focus is on the entire system, design, manufacturing, engineering, and installation. In North America Prysmian maintains a full-time group, specializing in High Voltage Cable Systems.

We offer a "Turn-Key" approach to High Voltage cable projects, providing a single-point-of-contact & accountability.

Prysmian's current High Voltage product range includes:

<i>Cable</i>	<i>Voltage</i>
High Pressure Fluid Filled (HPFF)	69kV - 345kV
High Pressure Gas Filled (HPGF)	69kV - 138kV
Self-Contained Oil Filled (SCFF)	69kV - 345kV
Cross Link Polyethylene (XLPE)	69kV - 400kV
Ethylene Propylene Rubber (EPROTENAX™)	69kV

Accessories

Prysmian manufactures a complete line of splices and terminations for Solid Dielectric cables and selected accessories for Fluid Filled cables. Prysmian also manufactures Fluid Pressurization systems for HPFF, HPGF, and SCFF cable systems.

Installation Services

Prysmian maintains a full-time design and installation division in North America that focuses on installing High Voltage Cable Systems (69kV - 400kV).
