PDI² Welcomes New Member

Prysmian Group North America returns as board level member

Coopersville, MI – May 5, 2021 – Power Delivery Intelligence Initiative (PDI²) is pleased to welcome back Prysmian Group North America as a board level member. Prysmian Group is a global leader in the energy and telecom cable systems industry. The Group designs and produces cables and solutions for the transmission and distribution of low, medium, high and extra high voltage systems in addition to state-of-the-art solutions for high-voltage underground and submarine cable links in some of the most challenging environments.

“As an inaugural member, we are pleased to have Prysmian Group rejoin our growing membership for PDI²,” said Ben Lanz, Chairman, PDI². “Their expertise, along with that of our other member organizations, will help us achieve our mission to grow awareness of the need for data-driven decisions when evaluating investments for power infrastructure.”

Landry Molimbi, Head of Asset Management and Prysmian Electronics, Prysmian Group North America, will be the member representative to PDI². Molimbi is responsible for leading all asset management and product development activities for high and medium voltage partial discharge testing/monitoring services, and innovative solutions for high voltage and power distribution in North America. Please visit our website for Landry’s full [bio](#).

About PDi²

PDi² is currently comprised of professionals from the power industry value chain including materials suppliers, cable manufacturers, installers, equipment and accessory manufacturers, service providers, and consulting, construction, and engineering firms – including Borealis, Burns & McDonnell, Centuri, Dow, Forterra, G&W Electric, Haugland Energy, IMCORP, Power Delivery Consultants, Prysmian Group North America, Quanta Services, Southwire, and TT Technologies. The group adheres to a stringent anti-trust policy as a condition of membership. New members are welcome to join this growing initiative. There are three levels of membership that fit the desired amount of board engagement and financial commitment. Membership helps amplify your visibility to a diverse power grid audience and provides a unique networking opportunity to accelerate business. For more information, please visit www.pdi2.org.

About Prysmian Group North America:

Prysmian Group is the world leader in the design, manufacture and sales of wire and cable products. Based in Highland Heights, Ky., Prysmian Group North America became the largest cable manufacturer in the region in July 2018 through the acquisition of General Cable, resulting in combined operations that include 27 manufacturing facilities, 14 distribution centers, four R&D centers, three sales offices and more than 5,400 employees. Prysmian Group North America serves the most comprehensive range of markets including power transmission and distribution, telecommunications, construction and infrastructure, energy projects and specialty industries for countless applications in the United States and Canada. Prysmian Group designs and produces cables and solutions for the transmission and distribution of low, medium, high and extra-high voltage systems, in addition to state-of-the-art solutions for high-voltage underground and submarine cable links in some of the most challenging environments. The Group is the world's largest provider of cutting-edge cables for voice, video and data transmission, offering a comprehensive range of optical fiber and copper cables and connectivity systems for the telecom industry. Prysmian Group is a public company, listed on the Italian Stock Exchange in the FTSE MIB index. Additional information is available at na.prysmiangroup.com.
